
The Desert

*I live in the desert
It's where I like to be
It's pretty hot here
But that's ok with me
There's lots of cactus, creatures and more
That makes the desert a great place to explore
Be careful of dangers
the desert has many
But don't forget to look for the beauty
Because there is plenty
Bring water, a snack, and a camera
in your backpack
So on your adventure
You can sit down
To enjoy watching the desert sun go
down*
